

My Redeemer lives

He swallowed death forever

All my tears He wipes away

He restored me to His image

my soul he has saved

He has torn but He will heal us

He has stricken but He binds us up

When we return with sickness

He will revive us with his blood

Chorus:

And now My Redeemer lives

A new life He did give

The old man washed away

The new Man came to stay

*He opened Paradise
Christ came to give me life*

*One thing I know is this
That my Redeemer lives*

I have set the Lord before me
At my right hand, I won't be moved

My heart rejoices in me
My flesh will rest in you

Baptised into His life and death

Crucified my past and flesh

He asks, “Can these bones live”

All I know is this..

Chorus:

And now My Redeemer lives

A new life He did give

The old man washed away

The new Man came to stay

*He opened Paradise
Christ came to give me life*

*One thing I know is this
That my Redeemer lives*

You who carried the sins of the world
A new creation I am in You

Old things have passed away
Behold all things have become new
